E-CELL, NIRMA UNIVERSITY - INTERNAL HACKATHON FOR SMART INDIA HACKATHON, 2022

The Entrepreneurship Cell, Nirma University recently organised the internal round of Smart India Hackathon (SIH) 2022. Nirma University conducted SIH at college level in which students from various institutes within the university participated. It was organised in two categories - Hardware and Software. In the Hardware category the participants had to make a prototype which would solve and prove their hypothesis. In the Software category, the participants had to make a web or mobile application to solve the problem and prove their hypothesis. In the Software category, 15 teams took part in the competition. All the teams pitched their ideas in various domains ranging from Academic Activities to AI based Chatbot to answer FAQs to Developing a solution for Gesture enabled commands for operating Laptops/PCs.
