

World Habitat Day 2020

Institute of Architecture and Planning, Nirma University

Resource Efficiency and Circular Economy in Human Settlements

Zeenat Niazi

Vice-President,
Development Alternatives
Group, India

The speaker, an Architect by training leads the policy studies and development action initiatives at the Development Alternatives Group, India. Her work over three decades has focused on sustainable housing and habitat in human settlements, community based approaches to climate and disaster resilience and support to national, sub-national and local governments in mainstreaming integrated planning for achieving Agenda 2030 and the Paris Agreement in India.

- ***Measuring “sustainability”***
- ***Beyond the rhetoric of vernacular, local, modern, industrial etc.***
- ***Resource metabolism in human settlements***
- ***Socio-economic context***
- ***Inter-generational equity***
