# How to Search MAC (Physical) Address

**Step-1:** **Please connect internet then Click on Start ⟶ Run**

Step-2: **Type cmd in run command**

Step-3: You will get following screen result showing as below and here you have to type **ipconfig /all >oup.txt** and that will create a txt file named oup.txt in following path and send this oup.txt file to **nulib@nirmauni.ac.in** to activate your remote login account.

    C:\Documents and Settings\Circulation
