Date: 12th September 2018

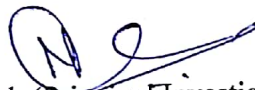

Submitted:

Sub: permission to utilize unutilized fund of industry sponsored research project (SP047)

I am heartily thankful to the Institute of Technology and University to permit me for industry sponsored research project in 2015. M/s. Stabicoat Vitamins sponsored my research project titled "To synthesis cross linked starch and study its application of in taste masking /coating for drug delivery application". Total project amount was Rs. 71,500/- and duration of project was two years (May 2015 – April 2017). The project has been completed and all reports are submitted to industry. At the end of project, Rs. 9664/- is left unutilized.

I had requested industry to permit me to utilize fund for student project/ research work, and they had consented for the same. Copy of letter from industry is attached herewith. I hereby request you to permit me for the same. So I can utilize the unused fund of this project for student project/ research work. Otherwise kindly permit me for the returning of the fund to concern industry.

Sub: Utilization/ returning of unutilized fund of sponsored research project: "To synthesis cross linked starch and study its application of in taste masking /coating for drug delivery application".

Dear Sir,

Our organization M/s. Stabicoat Vitamins, sponsored your research project as detailed below:

Title: "To synthesis cross linked starch and study its application of in taste masking /coating for drug delivery application"

Project duration: Two years. (April 2015 – March 2017)

Current status: Project completed

Fund unutilized: Approx Rs. 9000/-

As per our talk, we hereby inform you that we do not have any objection if you utilize the unutilized fund of our sponsored project for student project or any other similar purpose.

Thanking you,

For Stabicoat Vitamins
