July 8, 2019

Certificate of Completion of Internship

This is to certify that ***Ms. Riya Brahmbhatt*** has completed a Summer Internship at the *Department of Computer Science at the University of Houston, Texas, USA*. Under my supervision from May 21 to July 11, 2019 she has worked on the ongoing project called *Aconcagua* which centers on the development of a change analysis framework for spatial data**.** During her stay she developed some software for the project which used the PostGIS DBMS and she designed SQL queries related to analyzing the change in spatial data. During her visit she also received some training and practical experience related to data science, geographic information systems, and spatial database management systems. Overall, I was very happy with her work, as she moved the project forward, and made several contributions to the project.

Sincerely,

Christoph F. Eick
