Dear Madam,

Greetings from the DRI!

This is with reference to my meeting at the TCS Research & Innovation Centre, Pune for different collaborative activities with Nirma University. To start with, they have suggested organizing their famous event called, 'TCS Research Interaction Day' at Nirma University. This will be mainly the PG and Ph.D. students of CSE, IT and EC. In this event, they will send experts from their Research Center to talk to our students and the faculty members about the research trends in the field of computation / embedded / IT, etc. They have agreed to send their experts to NU. The overall duration of the event will be 3 to 4 hours. The whole event will be sponsored by the TCS Research Centre (including Airfare of the experts). We have to suggest couple of convenient dates to them.

Let me know your views on organizing the said event at IT-NU. If it is OK, please let me have couple of convenient dates for the event.

Thank You.

Regards,

Dr. Dhaval Pujara

TCS Research Interaction Day (March 30, 2018)

Directorate of Research and Innovation (DRI), Nirma University and Tata Consultancy Services (TCS) jointly organized "TCS Research Interaction Day" on March 30, 2018 at the Nirma University Campus. The event evoked an overwhelming response with 104 participants which included the faculty members, Ph.D. scholars and Post Graduate students of Electronics and Communication Engineering Department, Computer Science and Engineering Department and Information Technology Department. There were informative talks on, "TCS Research Scholar Programme"; "Machine Learning and its Applications" and "Research and Innovation Focus Areas at TCS" delivered by TCS officials.
