## Brand Communication

### Peeshute

## About the Brand

Siddhant Tawarawala (Founder & CEO)  
Bhushan Tawarawala (Co-Founder)

Peeschute is a unique, cost-effective method of peeing when access to a restroom is restricted. This unisexual paper bag transforms human urine into a non-liquid condition in seconds, keeping it leak-proof, odourless, and sanitary. Peeschute is best for those with temporary or permanent mobility impairments who have trouble getting to the bathroom, as well as travellers who have frequent urination problems due to a lack of washrooms nearby.

Tagline

PEESCHUTE

Fight All Pressures With Ease

The logo was created using the brand's former design as inspiration. The logo is a reduced version of the sign for pee (as in the need to urinate) that may be easily recognised as a symbol. The letter "U" in the brand name Peeschute is also replaced by the form.

Helvetica is a versatile font with many different weights. It makes a stylistic statement, but it is neutral enough that it is easy to read. It can be used for headlines and display type. It balances the form.

Helvetica Neue Thin  
*Helvetica Neue Thin Italic*  
Helvetica Neue Ultra Light  
*Helvetica Neue Ultra Light Italic*  
Helvetica Neue Light  
*Helvetica Neue Light Italic*  
Helvetica Neue Regular  
*Helvetica Neue Italic*  
Helvetica Neue Medium  
*Helvetica Neue Medium Italic*  
**Helvetica Neue Bold**  
***Helvetica Neue Bold Italic***

The icon system is simple, clean, and open. All icons use the same stroke weights. By default, the standard icons are available in unfilled version according to the purpose of usage. They are also available in the primary colors.

## Packaging Explorations

# Final Packaging

The brand consists of two products Peeschute Medi and Peeschute Travel. Consistency in the packaging is one of the most direct ways to ensure that we reflect a cohesive brand identity.

## Publication Design

Marine Pollution in the Indian Ocean

## About the Book

Estimated between 4.8 and 12.7 million tonnes of plastic entered the Indian Oceans. Garbage patches in the ocean are sobering reminders of humanity's collective plastic pollution problem. Measuring up to thousands of kilometers across, the patches have been confirmed to exist in the Pacific and Atlantic Oceans, but not in the Indian—a surprise, given that more plastic waste enters the Indian Ocean than anywhere else on Earth. A lot of marine lives are being harmed and may extinct due to this pollution. Its our duty to save our oceans. This book provides the reasons and what you can do to help as humans.

## Identity Design

Department of Design

## About

Department of Design commenced in 2017 with a vision of the management, to build a holistic campus of varied disciplines. The mandate was to expand the innovative science and logic-based disciplines to include creative, disruptive and non-linear thinking disciplines. Being the youngest department in Nirma University, our vision is to offer inter-disciplinary orientation that is necessary for today's industry demands.

The following logo and its subsequent visual language is designed for Department of Design, Nirma University as a part of re-branding. This is the base of the entire visual identity and its extension in various mediums. The consistency in the visual identity helps create a niche for the brand and hence, build a unique and strong brand image.

*Progressive* **Vibrant**  
*Fun* **Unity**  
*Diverse* *Interactive*  
**Creative**  
**Ambitious** *Energetic*  
*Collaborative* **BOLD**  
*Promising* **Flexible**  
*Culture*

The logo is the basis of the visual language. It is the foundation of the brand identity.

This identity is made with an attempt to reflect characteristics such as fun, unique and inclusive. The identity is developed with a vision to make it flexible without diluting the brand recall value and brand image.

The logo tells a story for itself. The entire identity is based on this fundamental idea.

## App Design

## Local Paws App

## About

The main concept of the app is to provide a platform for the animal lovers community to get together and help more more stray animals. A lot of times it happens that we would like to help/ feed/ care for the stray animals of our locality, but to do so we lack man power. One of the main features of this app is also to provide a stage where people can connect to other animal lovers and collectively help them.

This app mainly focuses on providing the data of local feeders/ volunteers or doctors so for that the location icon is used and that local feature is for the stray animals. To collectively portray the stray, generalized print of their paw is put in the location stamp.

# User Persona

**Neil Langaria**  
25 years  
Engineer  
Ahmedabad

**Bio**

Neil is a Senior Engineer at ABC Textiles in Ahmedabad. He has an energized perosnality and good vibes that he is likes by everyone at work. He had a huge friends group who use to love feeding stray animals at nights and mostly that spot used to be their addaaa. But they moved away and now Neil is looking for other people who share similar interests and chill with them.

**Goals & Interests**

- to create memories with like minded people
- to feed the stray animals
- be a part of that community

**Social Media Activity**

Facebook	50%
Instagram	80%
Twitter	30%
Telegram	70%
Whatsapp	90%

**Pain Points & Concerns**

- Unable to find more people who match his vibe
- Cannot afford to make huge money investment like in NGO to feed the stray
- Unable to find a good spot to feed.

**Personality**

## About

A photograph has the power to educate, move, and inspire people to take action, among other things. They might make people feel things through photos. Images have an impact on more than just individual lives.

Discovering the landmarks in the area, learning about them, and capturing them in images. I visited a variety of locations, including the Sun Temple, Adalaj Ni Vav, and Sarkhej Roza.

*Sarkhej Roza is a mosque and tomb complex located in the village of Makarba, 7 km south-west of Ahmedabad in Gujarat state, India. Sarkhej was once a prominent centre of Sufi culture in the country, where influential Sufi saint Shaikh Ahmed Ganj Baksh lived.*

*It is an example of the early Islamic culture of the region, fusing Islamic stylistic influences from Persia with Hindu and Jain architectural features to form what is known as the 'Indo-Saracenic' style of architecture.*

*Adalaj Stepwell or Rudabai Stepwell is a stepwell located in the village of Adalaj, close to Gandhinagar city in the state of Gujarat. The stepwell was built by Mahmud Begada in 1411, to commemorate Queen Rudabai, wife of Veersinh, the Vaghela chieftain. It served both a utilitarian and spiritual purpose for the people around. A number of people from villages around once filled water from this stepwell.*

*The Sun Temple is a Hindu temple dedicated to the solar deity Surya located at Modhera village of Mehsana district, Gujarat, India. It is situated on the bank of the river Pushpavati. It was built after 1026-27 CE during the reign of Bhima I of the Chaulukya dynasty.*
