MONOPOLY REPACKAGING

Packaging for Monopoly that is more durable, playful and easy to handle

RESEARCH ON EXISTING GAME PACKAGING

OPPORTUNITY AREAS

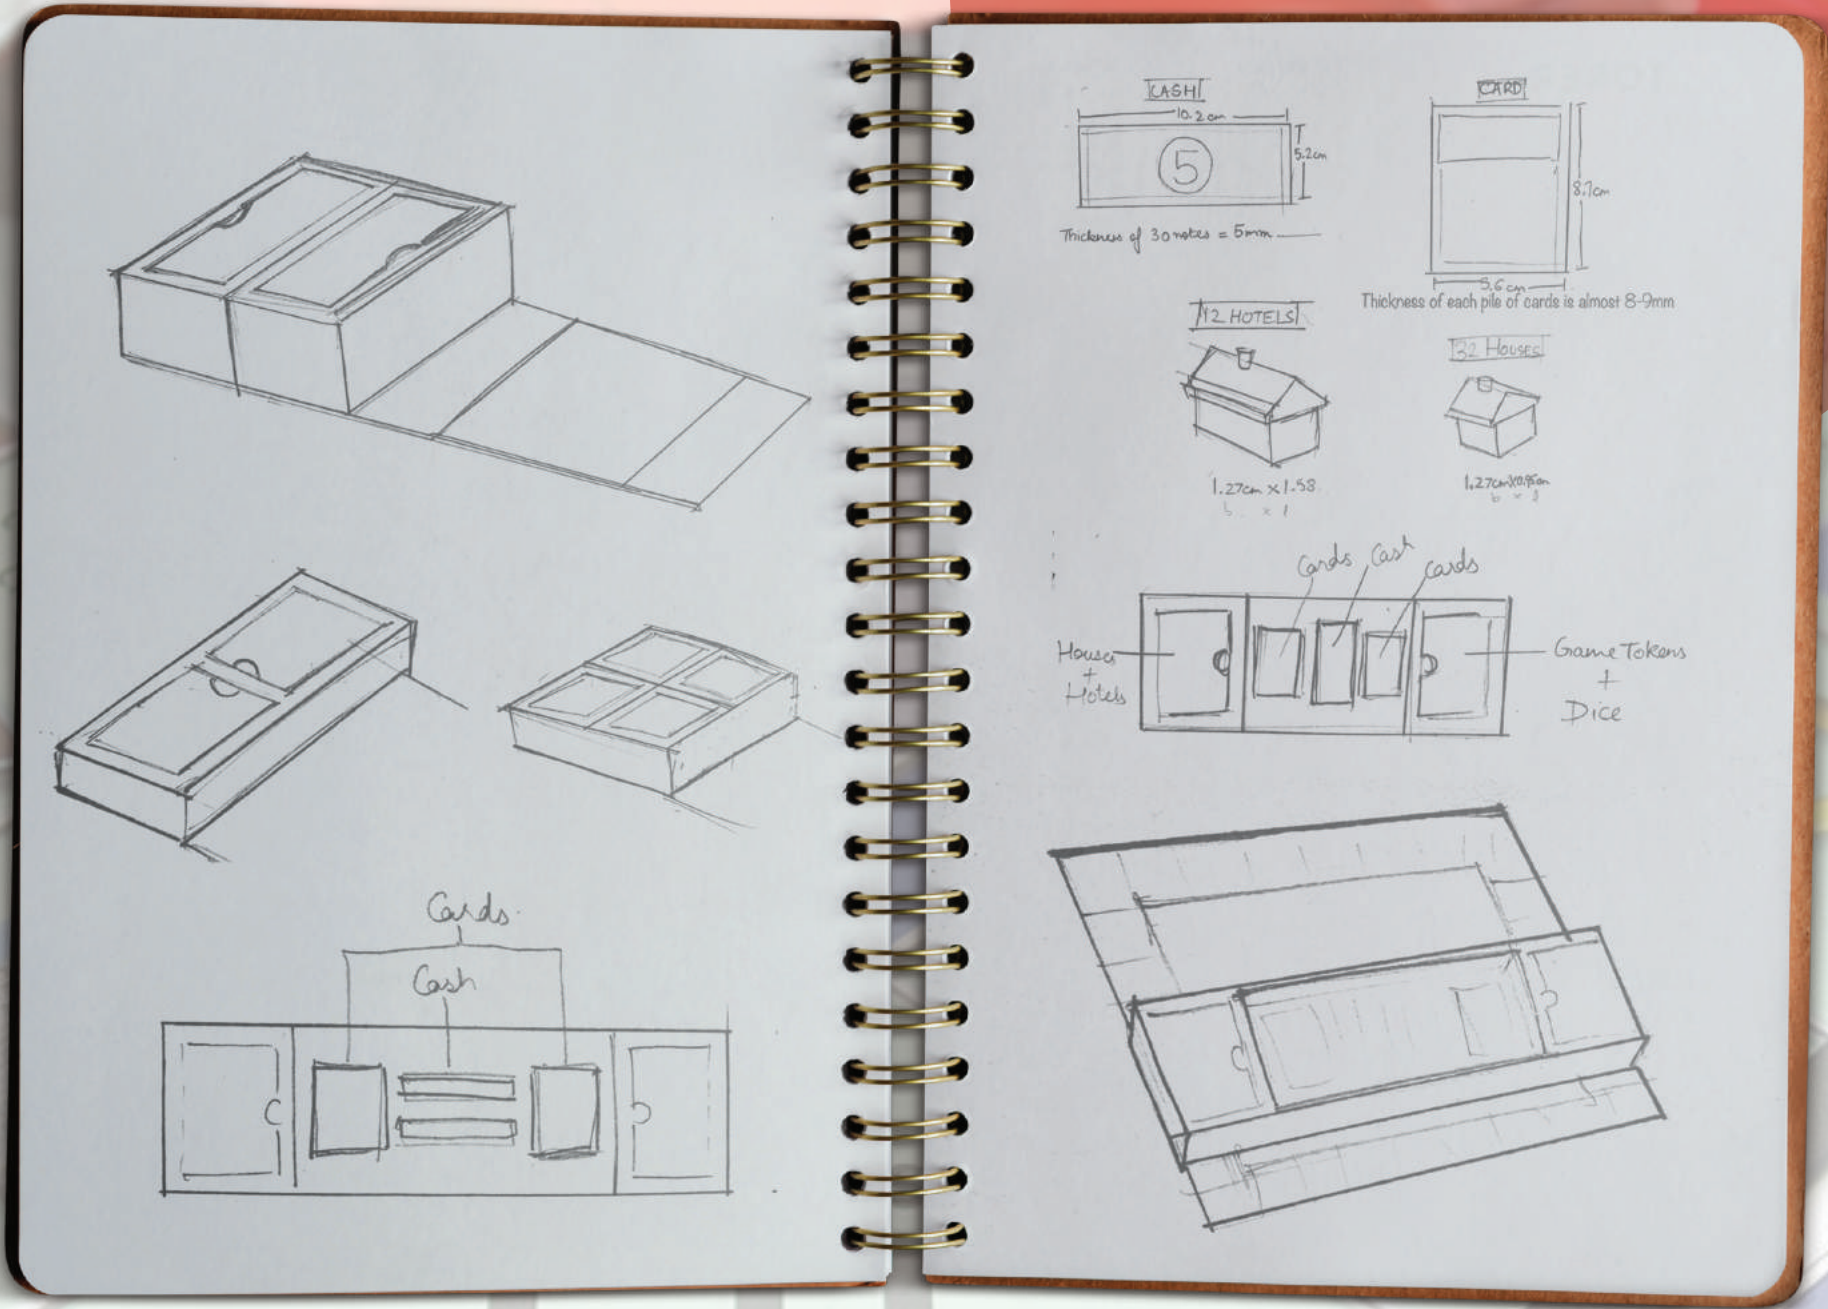

1. Loses its form to hold the game pieces
2. The game pieces can be easily stored
3. Making the packaging playful in itself

PROPOSED MATERIALS

1. Binding board with soft joins to enable easy folding and flattening of the game board
2. Textured or thick paper having the graphics glued on the board towards the outer side to make it durable
3. Printed paper having the board design to be mounted on the inner side
4. Lamination or coating to protect the ink from being rubbed off the print or from wear and tear

CONCEPTUALISATION

AGILIO

UI UX DESIGN

To design an interactive tool for the user to track and monitor certain cardio workouts at home.

APP INTERFACE

The app allows the user to add their details and create their own profile comprising of height, weight, and desired goal on which it recommends programs.

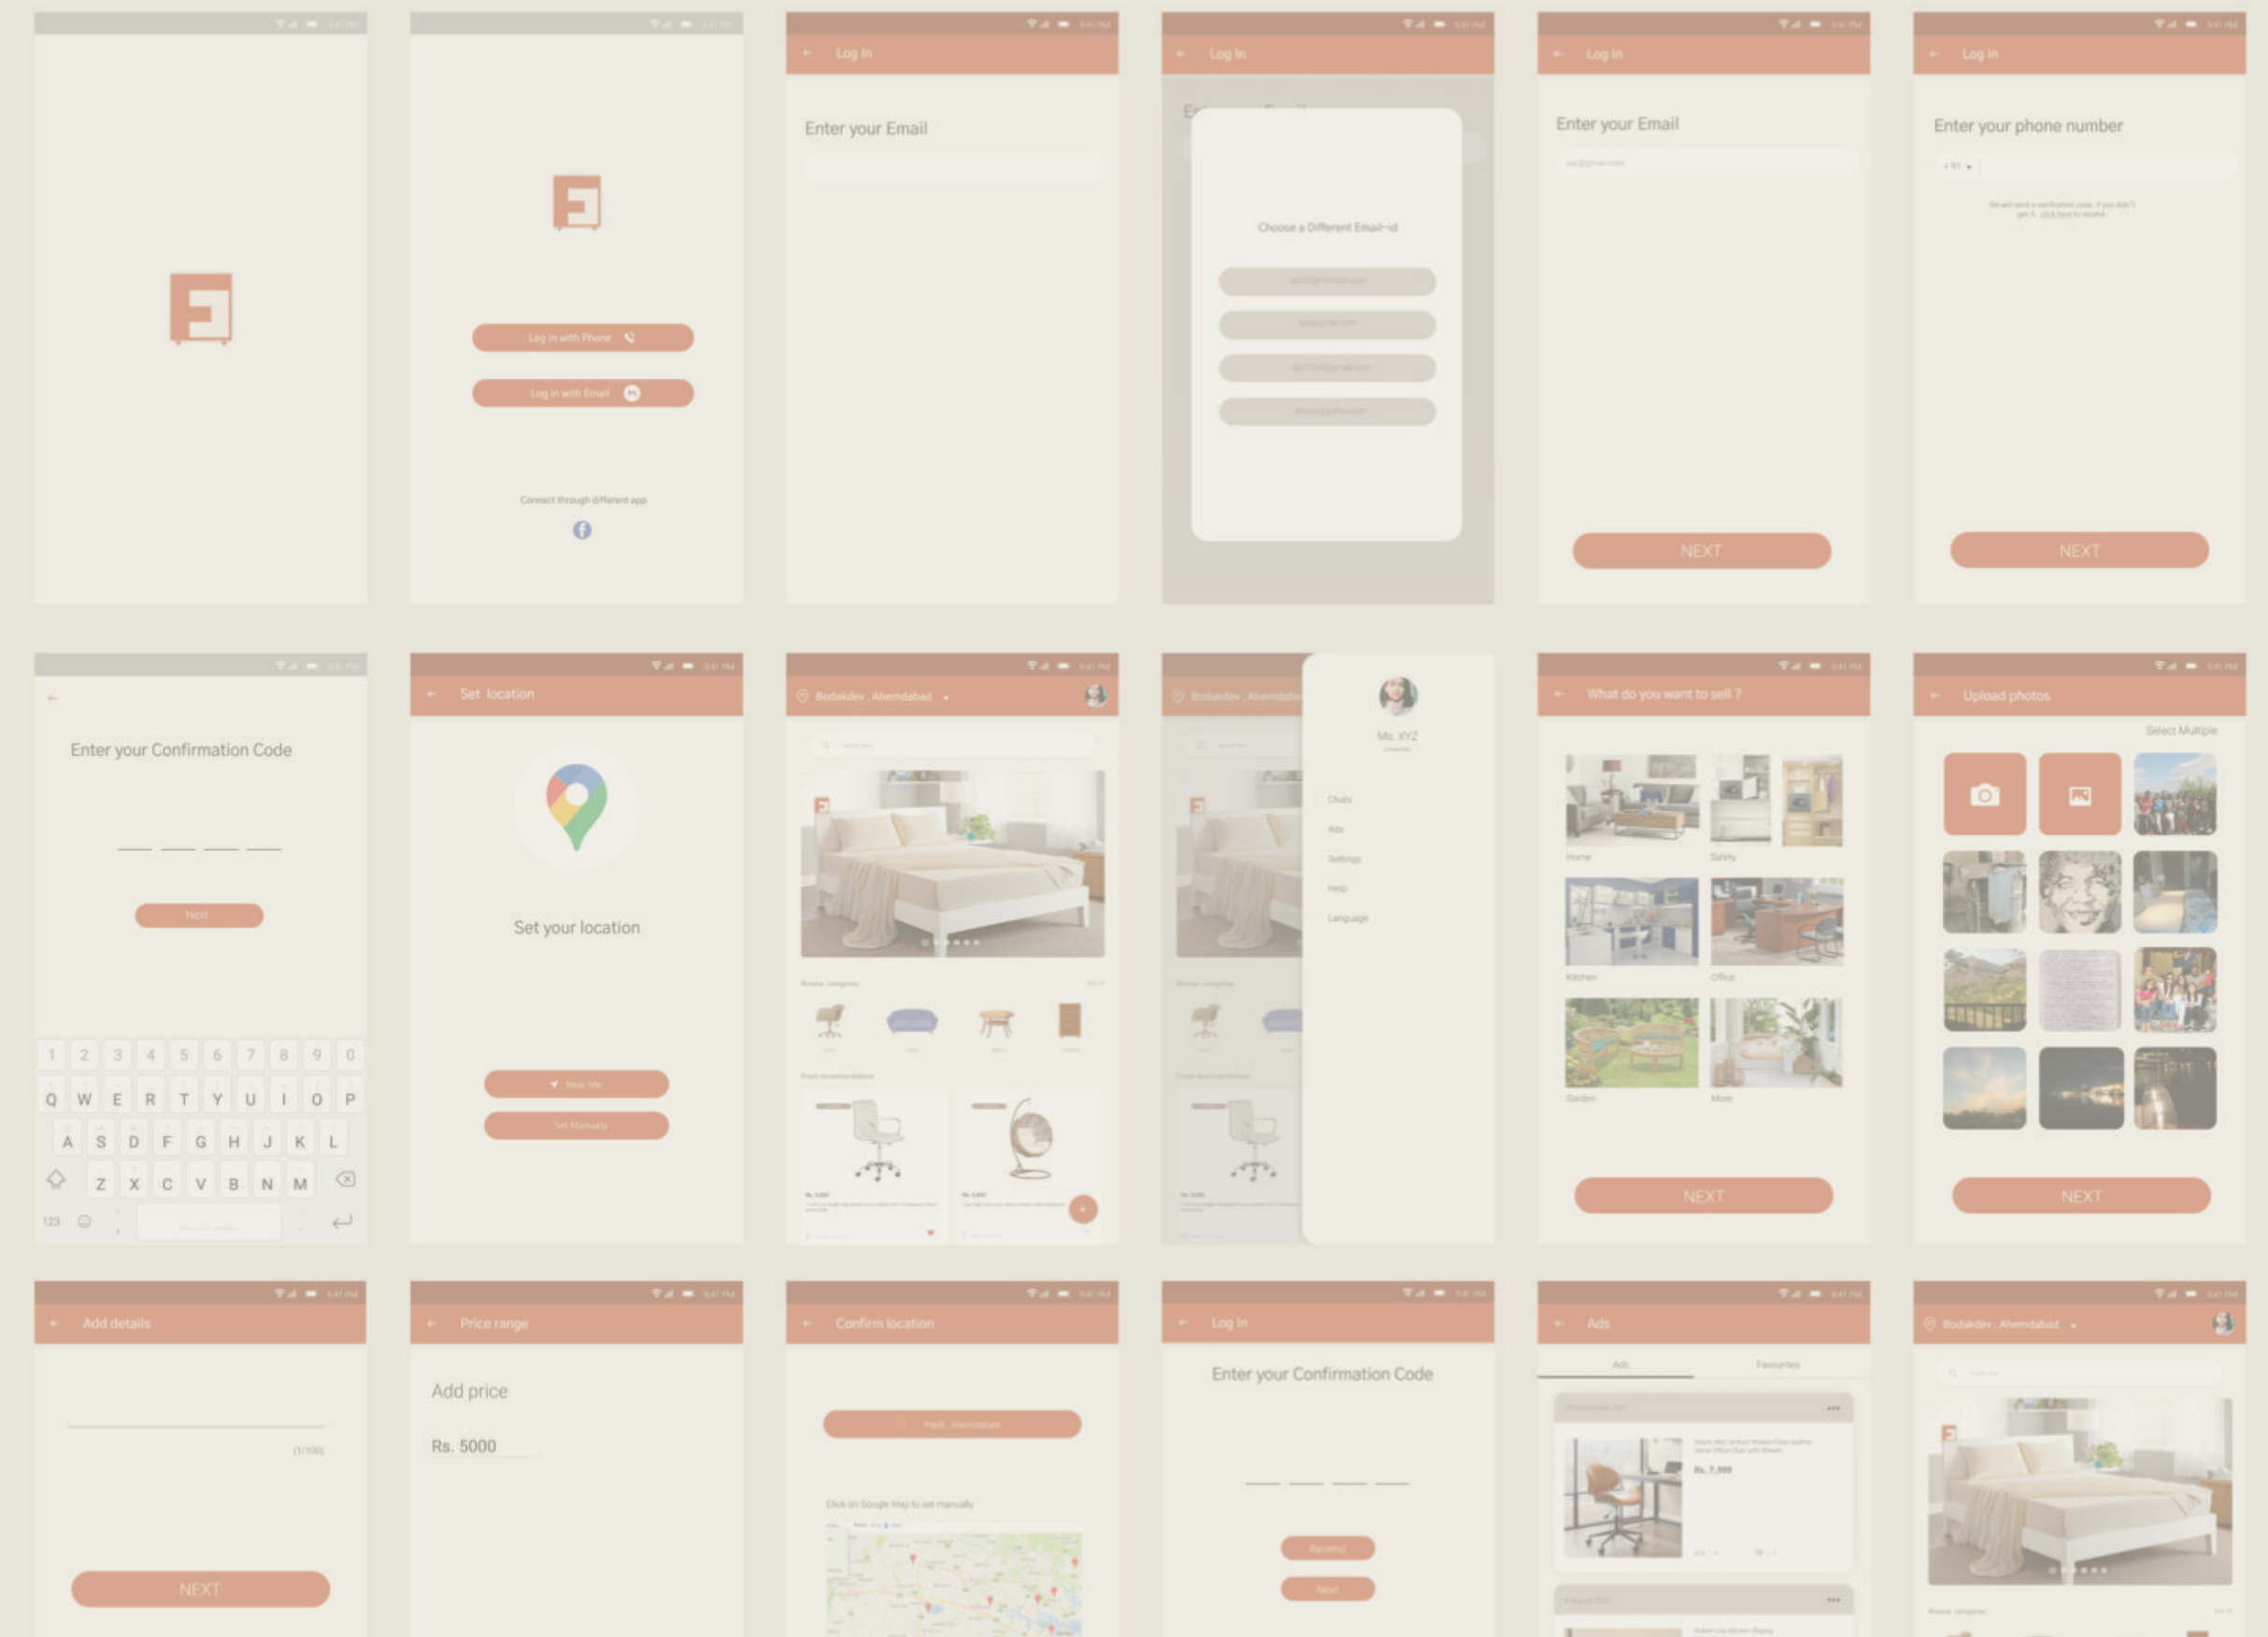

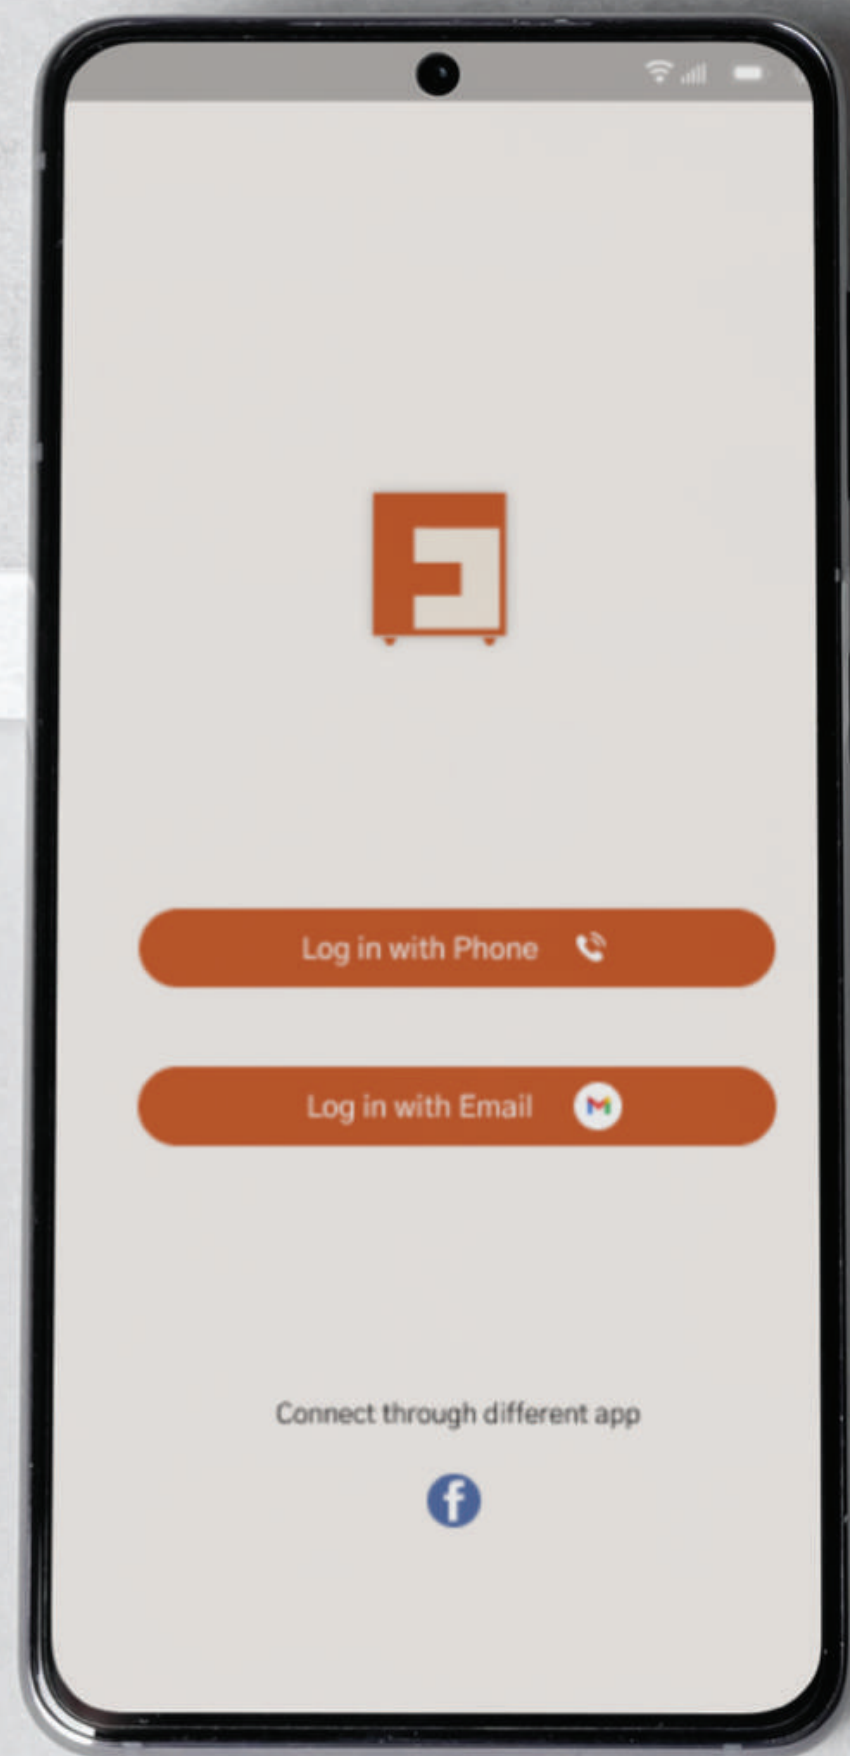

The programs are then divided into three categories: Easy/Medium/Hard.

In the end, your workout starts. It shows you your distance, runtime and music.

FURLIN SYSTEM DESIGN

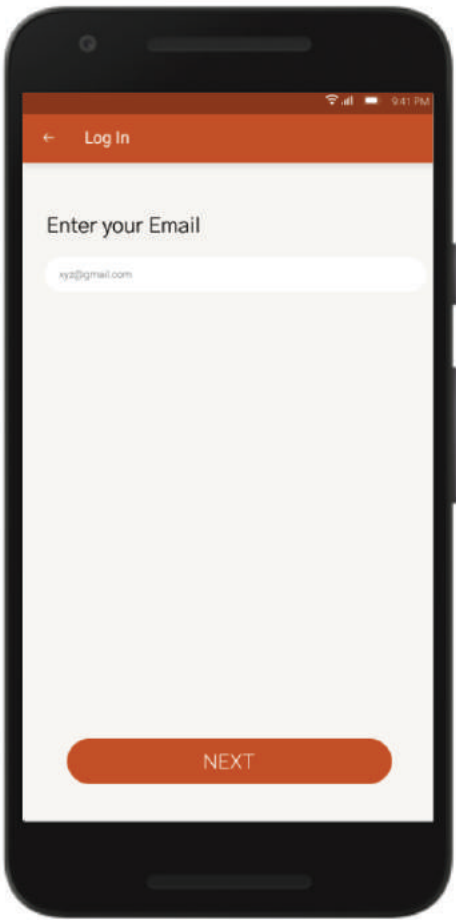

A platform to connect individuals to purchase and sell used furniture of a house, office, colleges and so forth.

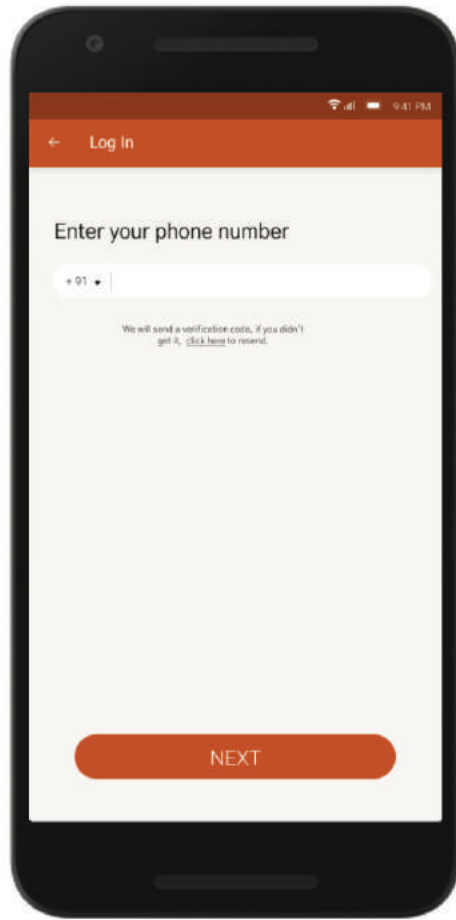

APP INTERFACE

Firstly to access the app, sign up or log in using the two modes which are given.

Through Email

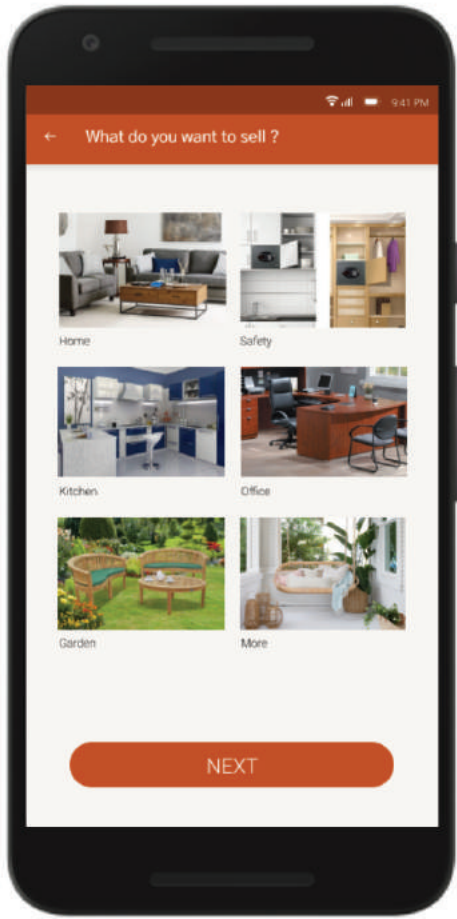

Through Phone number

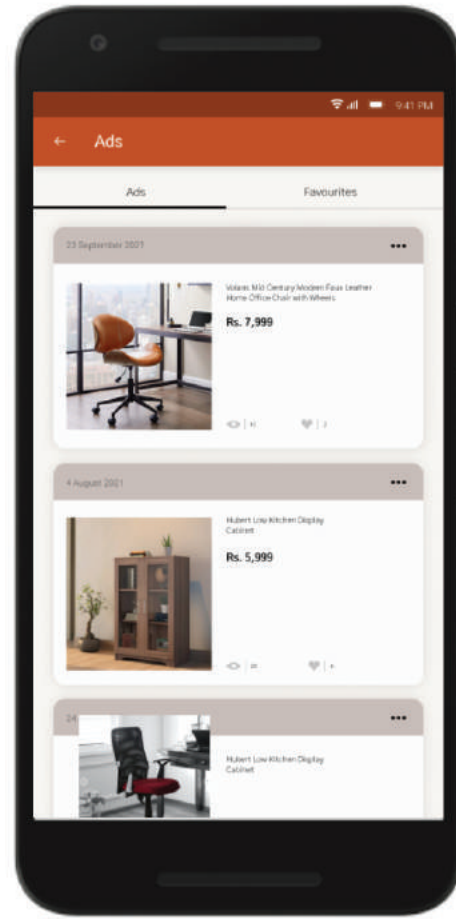

After that, you'll receive a confirmation code which will then direct you towards setting the location

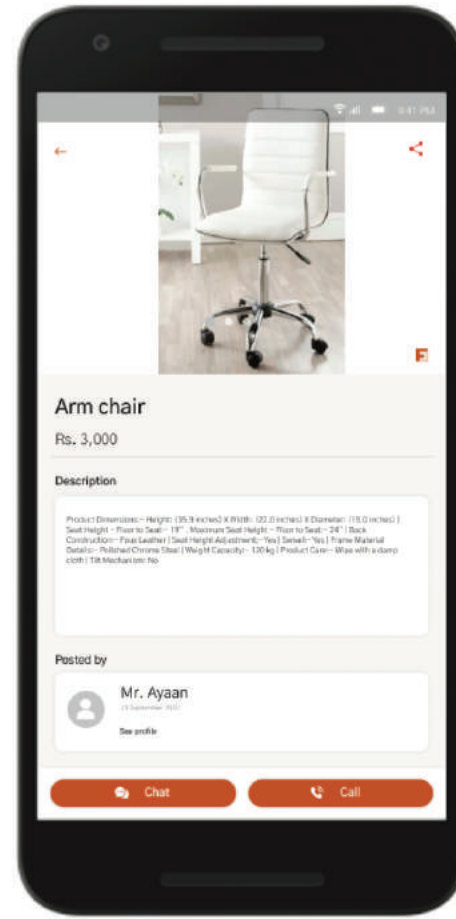

Once the location is confirmed, you are all set to use Furlin.

The app has a wide range categories to choose from, for selling

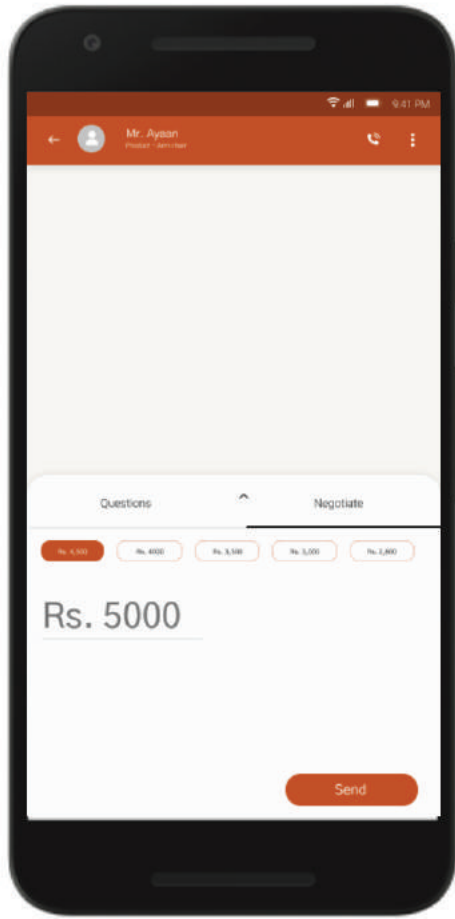

The most viewed/ the furniture according to your browsing history will pop up as ads

There will be all the necessary details for the user to understand about the product on sale in depth

Once you select the piece of furniture, you get to talk to the seller via chat or call

You can also negotiate the price with the seller.

SHVAAS

TECHNICALLY COMPLEX DEVICE

A smart device for home, that takes pollutants along with bad odour from the air and gives out fresh air with a nice fragrance

FEATURES OF SHVAAS

The product is equipped with a combination of four filters : Pre-filter, true HEPA filter, activated carbon filter, breathe safe filter, and smart sensors which keeps a tab on AQI and ensures maximum purity is maintained through the day.

This product is also equipped with UV-C chamber. This guards the users from any kind of germs and viruses.
