

## Programmes organized under Centre for Continuing Education (CCE)

| Sr.<br>No. | Name of the programme  | Programme<br>Coordinator(s) | Date                 |
|------------|--|-----------------------------|----------------------|
| 1          | Workshop on "Transactional analysis - A tool                           | Prof. Mitesh J Soni         | February 25, 2013    |
|            | for better interpersonal relations in                                  |                             |                      |
|            | organization"  |                             |                      |
| 2          | State Level Seminar on Microcontroller and                             | Prof. Ankit D Shah          | February 25, 2013    |
|            | Embedded C Programming   | Mr. Amit C Raval            |                      |
| 3          | Strategic Planning and Management for                                  | Prof. V.R. Iyer, Director   | June 8, 2013         |
|            | Engineering and Polytechnic Colleges                                   |                             |                      |
| 4          | Workshop on "Simulation of Wireless Communication System"              | Dr. Y.N Trivedi             | August 24-25, 2013   |
| 5          | Training programme on Mechatronics at                                  | Prof K M Patel              | September 5-11,      |
|            | Inspiron Engg Ltd  | Prof B A Modi               | 2013                 |
| 6          | Antenna Theory and Design  | Dr. Dhaval Pujara           | September 28, 2013   |
| 7          | Workshop on PCB Design   | Prof. Pritesh Shah          | October 14, 2013     |
|            |  | Mr. Amit C Raval            |                      |
| 8          | Workshop on "Hands on Experience of                                    | Prof. Rahul Shrimali        | December 16-18,      |
|            | Computer Network Design"   | Prof. Ajay Upaddhyay        | 2013                 |
|            |  | Prof. Ajay Patel            |                      |
| 9          | Mobile Handset Repairing   | Prof.Prites P.Shah,         | January 16, 2014     |
|            |  | Prof. Mittal Thakkar        |                      |
| 10         |  | Mr. Amit C. Raval           | - L 22 224           |
| 10         | Mobile Application Development   | Prof. Saurin Parikh         | February 22, 2014    |
|            |  | Prof. Sharnil Pandya        | and March 29, 2014   |
| 11         | CDD on "Derformance Analysis of MIMO                                   | Prof. Dhaval Jha            | March F 0, 2014      |
| 11         | F.D.P. on "Performance Analysis of MIMO Wireless Communication Systems | Dr. Y.N Trivedi             | March 5-9, 2014      |
| 12         | Virtual Instrumentation and its applications                           | Prof. Rajesh Zadfiya        | April 12-13, 2014    |
| 12         | virtual instrumentation and its applications                           | Prof. Nital Patel           | April 12-13, 2014    |
| 13         | My Pledge- Self leader Ship Programme                                  | Prof. Mitesh Soni           | May 15-16, 2014      |
| 14         | CNC Technology and Programming   | Prof. Prashant J Bagga      | July 2-4, 2014       |
|            |  | Prof. Deepa Yagnik          | ,                    |
| 15         | Four- Day Workshop on Simulation Software                              | Dr. R K Mewada              | August 23-24 and 30- |
|            | for Chemical Engineering Applications                                  | Dr. M H Joshipura           | 31, 2014             |
| 16         | Microwave and RF Circuit Design  | Dr. Dhaval Pujara           | August 30-31, 2014   |
|            |  | Prof. Aarti Gehani          |                      |

| 17 | FDP On "MIMO Wireless Communications"                                | Prof. Y. N. Trivedi                                    | September 13-14,<br>20-21 & 27-28, 2014<br>(Six Days) |
|----|--|--|---|
| 18 | One Day Training programme on "Power System Analysis and Simulation" | Prof. S. C. Vora                                       | September 13, 2014                                    |
| 19 | Modelling, Analysis and Simulation of<br>Electrical Power System     | Prof. S. S. Kanojia                                    | September 27, 2014                                    |
| 20 | Four Days Workshop On Electrical Motor Rewinding                     | Prof. J.N.Pathan<br>Prof U.L.Kolhe                     | December 2-5, 2014                                    |
| 21 | FDP on Embedded Systems  | Prof. Sachin Gajjar<br>Dr. D.K. Kothari                | December 15-16,<br>2014                               |
| 22 | Workshop on Hardware and Software Co-<br>Design                      | Prof. Parita Oza<br>Prof. Pooja Shah                   | January 17-31, 2015<br>(3 Saturday)                   |
| 23 | Sustainable Building and Town Planing                                | Dr. Parul R. Patel<br>Prof. Tarak Bhatt                | February 28, 2015                                     |
| 24 | Electronic System Design   | Prof. M.T.Shah<br>Prof. P.N.Kapil                      | February 28, 2015 to<br>March 1, 2015                 |
| 25 | Advanced Control Using PLC   | Prof. Alpesh Patel,<br>Prof. Sandip Mehta              | April 11-12, 2015                                     |
| 26 | Energy Efficiency of Process Utilities                               | Dr. Parin Shah   | October 10-11, 2015                                   |
| 27 | Testing and Verification of VLSI Design                              | Dr. Usha Mehta<br>Prof. Vaishali Dhare                 | October 10-11, 2015                                   |
| 28 | Dynamic web designing using Angular JS                               | Prof. Darshana Upadhaya<br>Prof. Preksha Pareek        | October 10-17, 2015                                   |
| 29 | Workshop on 3D CAD Solid Modeling using Software                     | Prof. A.M.Lakdawala                                    | October 19-24, 2015                                   |
| 30 | One Day Workshop On Nanoscale Device Modelling                       | Dr. N.M Devashrayee<br>Dr. Amisha Naik                 | January 10, 2016                                      |
| 31 | Advanced.Net Technology  | Prof. Manish Singh<br>Prof. Sudha Patel                | January 18 - 19, 2016                                 |
| 32 | Introduction to CNC Technology and its Tooling                       | Prof. Prashant J. Bagga                                | January 19, 2016                                      |
| 33 | Electrical Motor Rewinding   | Prof. J. N. Pathan                                     | January 21-22, 2016                                   |
| 34 | STTP on "Introduction to Computational Fluid Dynamics"               | Dr. V. J. Lakhera<br>Prof S. V. Jain                   | January 23-24, 30-31<br>and February 6, 2016          |
| 35 | One Day Workshop On Power System Simulation & Analysis               | Prof. Chintan Mehta<br>Prof Shanker Godwal             | January 30, 2016                                      |
| 36 | Electrical Power System Transients -<br>Concepts and Simulations     | Dr. S.C. Vora  | February 27, 2016                                     |
| 37 | Design of Industrial Heat Exchangers                                 | Dr A M Lakdawala<br>Dr. C S Mistry<br>Prof. N. K. Shah | February 27, 2016 to 06 March 2016                    |
| 38 | Computer Interfaced Science Experiments                              | Dr.Ankur Pandya<br>Dr. Chetna Chauhan                  | March 26, 2016  |

| 39 | Pump Engineering : Fundamentals and   | Dr. Parin Shah          | April 2-3, 2016     |
|----|---|-------------------------|---------------------|
|    | Application   |                         |                     |
|    | To 1 1 1111 1 2 1 1 1 1 2   | D 60 HAA 1 1            | 1. 11.2.2016        |
| 40 | Probability and Statistics for Computer                                       | Prof. Sapan H Mankad    | April 2, 2016       |
|    | Engineers   | Prof. Jitendra Bhatia   | 1 1100 2016         |
| 41 | Concrete Technology in Perspective  | Dr. U.V. Dave,          | April 8-9, 2016     |
|    |   | Prof. Tejas Joshi       | A !! 0 2016         |
| 42 | Industrial Automation Integration of PLC in                                   | Prof. Alpesh Patel,     | April 9, 2016       |
|    | LabView   | Prof.Harsh Kapadiya     | 1 11 22 24 2246     |
| 43 | Applications of Computational Tools in  | Prof. Parag Saxena,     | April 23-24, 2016   |
|    | Chemical Engineering  | Dr. M.H. Joshipura,     |                     |
|    | A self-self-self-self-self-self-self-self-                                    | Prof. Priya Saxena      | NA - 22 20 2046     |
| 44 | Applications of Microwave Remote Sensing                                      | Dr. Parul Patel         | May 23-28, 2016     |
| 45 | Engineering Chemistry   | Prof. Neha Patni,       | May 24-26, 2016     |
|    |   | Dr. Shibu G. Pillai     |                     |
| 46 | Engineering Mathematics -A tool for<br>Engineers                              | Dr. Amit Mishra         | June 13-17, 2016    |
| 47 | Solid modeling using CAD Software   | Prof. Rudresh Makwana   | July 16, 2016 to    |
|    |   | Prof. Jatin Dave        | October 01, 2016    |
| 48 | Making Yourself Ready for Industry  | Prof. Parag Saxena      | July 30-31, 2016    |
|    |   | Prof. Priya Saxena      |                     |
| 49 | Analog and Mixed VLSI Design  | Dr Amisha Naik,         | August 13, 2016     |
|    |   | Prof Dipesh Panchal     |                     |
| 50 | Big Data Analytics with Hadoop and Spark                                      | Prof. Sapan H Mankad,   | December 26-30,     |
|    | Framework using Python Programming  | Prof. Jai Prakash Verma | 2016                |
| 51 | Big System Design   | Dr. N P Gajjar          | January 22, 2017    |
| 52 | Speech Processing for beginners   | Prof. Sapan H Mankad,   | April 8, 2017       |
|    |   | Prof. Jai Prakash Verma |                     |
| 53 | Embedded System Design  | Prof. Sachin Gajjar,    | May 25-26, 2017     |
|    |   | Dr. D.K. Kothari        |                     |
| 54 | Engineering Graphics- A language of Engineer                                  | Prof. Anand Patel       | June 12-14, 2017    |
| 55 | Programmable Logic Controller   | Dr. J B Patel           | July 1-31, 2017     |
|    |   | Prof. Alpesh Patel      | (Saturday and       |
|    |   | ·                       | Sunday)             |
| 56 | Solid modelling using CAD software  | Dr. Jatin M. Dave       | July 15, 2017 to    |
|    |   | Prof. Rudresh Makwana   | November 18,2017    |
|    |   |                         | (Working Saturday)  |
| 57 | Finite Element Analysis using CAE Packeges                                    | Dr. Jatin M. Dave       | August 22, 2017 to  |
|    |   | Prof. Nipun Raval       | September 12, 2017  |
|    |   | Dr. Reena Trivedi       |                     |
| 58 | Analysis and Design of Building using STAAD                                   | Prof. Utsav Koshti      | September 1-2, 2017 |
|    | Pro   | Prof. Tejas Joshi       |                     |
|    |   | Prof. Sunil Raiyani     |                     |
|    | 1   | Dr. Jatin M. Dave       | September 4, 2017   |
| 59 | Advanced Finite Element Analysis using CAE                                    | Di. Jatili Ivi. Dave    | September 4, Zoir   |
| 59 | Advanced Finite Element Analysis using CAE Packeges for engineers and working | Prof. Nipun Raval       | to October 5, 2017  |

| 60  | Analysis of Electrical Systems using          | Dr. Gulshan Sharma        | October 7-8, 2017   |
|-----|---|---------------------------|---------------------|
|     | Simulation Tools                              | Prof. Akhilesh Panwar     |                     |
|     |   |                           |                     |
| 61  | Power Electronics for Renewable Energy        | Dr. Siddharthsingh K.     | February 17 - 18,   |
|     | Systems and Power Quality Issues              | Chauhan                   | 2018                |
|     |   | Prof. Manisha T. Shah     |                     |
| 62  | Enhancing Power System Capability through     | Dr.Siddharthsingh Chauhan | March 17-18, 2018   |
|     | FACTS   | Dr. Akhilesh Arvind Nimje | ,                   |
| 62  | Pack End VICI Decign                          | Prof. Akash Mecwan        | April 6 7 2019      |
| 63  | Back End VLSI Design                          |                           | April 6-7, 2018     |
|     |   | Prof. Vijay Savani        |                     |
| 64  | Engineering Graphics - A Language of          | Prof. Anand S. Patel      | June 06-08, 2018    |
|     | Engineer                                      |                           |                     |
| 65  | Engineering Mathematics – A tool for          | Dr. Mahesh Yeolekar       | June 11-15, 2018    |
|     | Engineers                                     | Dr.Sandeep Malhotra       |                     |
| 66  | Solid modelling using CAD software            | Dr. Jatin M. Dave,        | August 20,2018 to   |
|     |   | Prof. Rudresh Makwana     | October 26, 2018    |
| 67  | Internet of Things and Fog Computing          | Dr. N P Gajjar,           | August 28-29, 2018  |
|     |   | Dr. Sachin Gajjar         |                     |
| 68  | Testing and Verification of VLSI Design       | Dr. Usha Mehta            | October 02-03, 2018 |
