

# Industry Outlook

---

Industry Outlook helps you anticipate trends in 209 industries.

Industry Outlook is your risk management tool. It helps you prepare to better ride the business cycles while anticipating the future.

Expected creation of new capacities, projected financial performance, price movements of commodities, demand-supply balances or gaps in the future - these are some of the indicators that Industry Outlook provides information on.

Industry Outlook is particularly useful in understanding the current and expected trends in the economic environment that your industry operates in. These are your suppliers' industries, your customers' industries or your competing industries.

These are the industries that credit officers lend to. These are the industries that fund managers invest in. For business schools, these are the industries that the students will get into. Industry Outlook is indispensable because it is comprehensive.

---

# Industry Outlook

---

Industry Outlook provides a well-balanced presentation of data, analysis and forecasts on a large number of industries. It presents the following kinds of information:

**Demand & Supply:** Capacity and production details sourced from associations and government, foreign trade from DGCI&S and prices from diverse sources including CMIE-pollled prices are presented here.

**Annual Financials:** We present aggregate and company level financial performances including analytical ratios and cost structures.

**Market Share:** This is an insightful compilation of shares of companies in products of an industry.

**Quarterly Financials:** For listed companies.

**Stocks:** We present valuation metrics of listed companies.

**CapEx:** Trends in proposals to create new capacities, their completions, stalling, abandonments or revivals are provided along with their distribution by States and by Ownership.

**Annual Survey of Industries:** Aggregate financial data based on a survey of factories by the Union government is presented.

**Forecasts:** We provide forecasts on demand & supply indicators, financial performances and capex. Results of RBI's Industry Outlook Survey are also available.

**Analysis:** We present our short essays giving insights into what data and news tell us about the industries.

**Monthly Review:** A review of each industry is published every month.
