Courts that Matter

Author: Sandra Botero,

Publisher: Cambridge University Press, 2023

ISBN: 9781009281973

In *Courts that Matter*, Sandra Botero tackles a crucial question: Can courts advance socio-economic rights? Using a rigorous comparative study of the impact of socioeconomic rights rulings in Colombia and Argentina, Botero argues that such decisions can be significantly impactful when courts deploy certain monitoring mechanisms and when legally empowered organizations in civil society are engaged in the outcome. The book includes case studies of landmark rulings on environmental, health, housing, and other socioeconomic rights and charts pathways for broader applicability through comparison with rulings by the Indian Supreme Court. The book demonstrates how Colombian and Argentine highest tribunals have, at times, successfully configured important new political spaces for the effective pursuit of public policy goals, in conjunction[More Details...](#)

Competition Law and Democracy

Author: Elias Deutscher

Publisher: Cambridge University Press, 2023

ISBN: 9781009075817

Examining the normative foundations of US antitrust and EU competition law, Elias Deutscher argues that the idea of a competition-democracy nexus rests on a commitment to a republican understanding of economic liberty. The book uses this republican concept of economic liberty to analyse how US antitrust and EU competition law embodied a competition-democracy nexus and explains how the turn of competition law toward a more economic approach has led to its decline. The book offers proposals for how the nexus can be revived to allow competition law to address contemporary concerns about the concentration of corporate power.....

Consenting to International Law

Author: Samantha Besson

Publisher: Cambridge University Press, 2023

ISBN: 9781009406444

The obligations stemming from international law are still predominantly considered, despite important normative and descriptive critiques, as being 'based' on (State) consent. To that extent, international law differs from domestic law where consent to the law has long been considered irrelevant to law-making, whether as a criterion of validity or as a ground of legitimacy. In addition to a renewed historical and philosophical interest in (State) consent to international law, including from a democratic theory perspective, the issue has also recently regained in importance in practice. Various specialists of international law and the philosophy of international law have been invited to explore the different questions this raises in what is the first edited volume on consent to international law in English language. The collection addresses three groups of issues: the notions and roles of consent in contemporary international law; its objects and types; and its subjects and institutions.....[More Details...](#)

Sovereignty and the Limits of International Law

Author: Todd Berry
Publisher: Routledge, 2023
ISBN: 9781032589633

The inspiration for this book comes from negotiations that are taking place under the auspices of the United Nations by an intergovernmental conference for a new International Legally Binding Instrument (ILBI) under the United Nations Convention on the Law of the Sea (UNCLOS) on the conservation and sustainable use of marine biological diversity of Areas Beyond National Jurisdiction (ABNJ). The proposed ILBI is attempting to fill existing gaps under international law over marine biodiversity and Marine Genetic Resources (MGR) in ABNJ. One way it is attempting to do this is by having an Access and Benefit-Sharing (ABS) schema over these resources in ABNJ that the United Nations Convention on Biological Diversity (CBD) and its Nagoya Protocol (NP) do not currently cover. These existing frameworks that regulate genetic resources are grounded in the notion of sovereignty.

The Communicator's Guide to Media Law and Ethics

Author: Mark Pearson
Publisher: Routledge, 2023
ISBN: 9781032445571

This book offers an introduction to the key legal and ethical topics confronting Australian journalists and strategic communicators both at home and internationally and offers a suite of reflective techniques for navigating them. It starts by positioning morals, ethics, and the law in their historical and philosophical frameworks by tracing the evolution of free expression and professional media ethics. Media law and ethics are then contextualized in their modern international human rights framework. Readers are equipped with a skill set for reflecting on the law and ethics of professional media dilemmas – including mindful reflection, the Potter Box, journaling, concept mapping, and discussion. Such approaches are then applied to key topic areas, including free expression; reputation; confidentiality; privacy; justice; intellectual property; national security; discrimination and harassment; and conflicted interests. Each is examined in terms of its philosophical underpinnings, relationship to human rights, professional ethical context. [More Details...](#)

[Same as Ever: Timeless Lessons on Risk, Opportunity and Living a Good Life](#)

Author: Morgan Housel

Publisher: Harriman House, 2023

ISBN: 9781804090947

When planning for the future we often ask, "What will the economy be doing this time next year?" Or, "What will be different ten years from now?" But forecasting is hard. The important events that will shape the future are inherently unpredictable. Instead, we should be asking a different question: What will be the same ten years from now? What will be the same one hundred years from now? Knowledge of the things that never change is more useful, and more important, than an uncertain prediction of an unknowable future. In *Same As Ever*, bestselling author Morgan Housel shares 24 short stories about the ways that life, behaviour, and business will always be the same.... [More Details...](#)

[We Also Make Policy : An Insider's Account of How the Finance Ministry Functions](#)

Author: Subhash Chandra Garg

Publisher: HarperCollins India, 2023

ISBN: 9789356994713

Economic policy has a direct impact on how people live, eat, work and spend. It governs every aspect of life, and finance secretaries are central to how economic policy is made and implemented. In this book, Subhash Chandra Garg, former economic affairs secretary and finance secretary, tells the inside story of how economic policy is made, and unmade, at the highest levels in the Government of India. *We Also Make Policy* is a fly-on-the-wall account of proceedings within the finance ministry. The book talks candidly about controversial decisions from the first tenure of the NDA government, such as the politics of 'minimum support price' to farmers, electoral bonds, recapitalizing of banks, monetizing national assets and the controversial resignation of RBI Governor Urjit Patel, among others. As the author of three Union Budgets, Garg also talks about what it takes to put the Budget together: the pressures, ... [More Details...](#)

[India's Experiment with Democracy : The Life of a Nation Through Its Elections](#)

Author: S.Y. Quraishi

Publisher: HarperCollins India, 2023

ISBN: 9789356993648

Since the founding of the republic, India has been the largest democracy in the world. In many respects it was considered a model democracy owing to its ideals, such as a non-partisan Election Commission and free dialogue and debate. Its abiding features have been non-discriminatory management of diversity, concern for an equitable and equal society, and a profound reverence towards the country's founding document, the Constitution. Over the years, the tussle between historical reality and theoretical idealism ensured that at times the social contract was disrupted, with conflicts obstructing a complete achievement of democracy. In *India's Experiment with Democracy*, former chief election commissioner S.Y. Quraishi examines key questions that face India today: What foundational principles must be definitive to our ideas of nationhood, citizenship and democracy? How may we enliven our national discourse with a renewed spirit of inquiry and imaginative erudition, and mid-course correction? Ultimately, the underlying thrust of this book is to posit reasoned argumentation, objective enquiry, secularism, civil liberty and [More Details...](#)
