Contents:

The summer internship is aimed at providing an opportunity for the students to gain practical experience in the industries/research institutes for a period of 4 to 6 weeks during the summer break between Semester –II and Semesterdata III. During the summer internship, the student will be exposed to an industrial / research environment, which will help them develop the competencies required for a professional career and interpersonal and human relationship skills. However, if a student wants to take value-added courses, the institute will offer various value-added courses during this duration.
