

NIRMA UNIVERSITY

Institute:	Institute of Technology
Name of Programme:	MTech Semiconductor Technology
Course Code:	6EC152CC22
Course Title:	Research Methodology and IPR
Course Type:	Departmental Elective
Year of Introduction:	2024-25

L	T	Practical component				C
		LPW	PW	W	S	
2	-	-	-	-	-	2

Course Learning Outcomes (CLOs)

At the end of the course, students will be able to –

1. formulate a research problem for a given engineering domain. (BL6)
2. analyse the available literature for given research problem. (BL6)
3. develop technical writing and presentation skills. (BL6)
4. comprehend concepts related to patents, trademark and copyright. (BL6)

Contents		Teaching hours (Total 30)
Unit I	Introduction Introduction to research problem, sources of finding a research problem, characteristics of a research problem, pitfalls in selecting a research problem, scope and objectives of research problem, approaches of investigation of solutions for research problem.	04
Unit II	Literature Review Effective literature review approaches, literature analysis, avoiding plagiarism, ethics in research, data collection, analysis, interpretation.	04
Unit III	Technical Writing and Presentation Effective technical writing, thesis writing, research proposal writing, research paper writing, presentation skills, tools for technical writing and presentation.	04
Unit IV	Intellectual Property Rights Introduction and significance of intellectual property rights, types of Intellectual Property Rights, copyright and its significance, introduction to patents and its filing, introduction to patent drafting, best practices in national and international patent filing, copyrightable work examples.	04
Unit V	Patent Rights Patents and its basics, patentable items, designs, process of filing patent at national and international level, process of patenting and development, technological research and patents, innovation, patent and copyright international intellectual property, procedure for grants of patents, need of specifications, types of patent applications, provisional and complete specification, patent specifications and its contents, trade and copyright.	07

Administration of patent system in India, India's stand in the world of IPs, new developments in IPR at national and international level, prosecution (filing) PCT / international filing, national phase filing, scope of patent rights, licensing and transfer of technology, patent information and databases, geographical indications, basic laws related to patent filing, case studies- IPR of Hardware, computer software.

Self-Study:

The self-study contents will be declared at the commencement of Semester. Around 10% of the questions will be asked from self-study contents.
